Geo-fence alarm intelligent warning

After define a safe area Geo-fence on the map, once the child with GPS watch is out of the safe area, it will trigger an alarm and notify you via the mobile client APP.

Safety Material

The watch strap is made of food-grade silicone, which is safe and comfortable to use. It can effectively prevent the naughty children from scratching and biting the watch to protect the child.

One button SOS

When the child is in danger, long press the SOS key
to make a phone call
