

Home is where comfort rules supreme. We understand your feelings and hence have designed a Video Door Phone that lets you view a visitor on your TV set. What's more, ensuring you complete safety is an additional CCTV camera that can be installed at a different location such as back door, balcony etc. to secure a wider area!

#### Aesthetic dual tone design

Distance will never be a problem when See Thru Quadra Mobile Application is at hand, for Remote Viewing the video feed over internet using Smart Phone.

#### View visitors on your TV set

Relax. You no longer need to attend the door. Now view visitors from the comforts of your home, on your TV set.

#### Unlock door without attending it

Conveniently unlock the door without attending it. It's easy and smart way to ensure safety at your home.

#### Captures and stores photographs with every outdoor unit bell press

Click. Click. Click! Captures and stores photographs of every single movement for future reference every time someone presses the outdoor unit bell.

#### Vandal resistant and weatherproof outdoor unit

Be it wind or rains, robbers or petty thieves, the vandal resistant and weather proof outdoor unit ensures protection under any circumstance.

#### Additional SmartView CCTV camera secures a wider area

The wider the view the greater is the security. That's what the additional SmartView CCTV camera does, by enlarging your viewing perimeter considerably.

#### Colour LCD Screen on the indoor unit allows you to monitor visitors at the door

The colour LCD screen on the indoor unit makes sure that no details are missed and you get a clear view of the visitor standing outside the door.

#### Backlit touch sensitive keypad

Backlit touch sensitive keypad on the indoor unit allows easy operation in the dark. So now relax regardless whether it's day or night

#### Allows one way video and two way audio communication

All round security is now at your service 24X7. It comes equipped with one-way video and two-way audio communication.

#### Magnetic handset that clings to the indoor unit for added convenience

Security is all set with the magnetic handset that clings to the indoor unit making sure that convenience greets you at every step.
